

## DEPARTMENT OF CHEMISTRY

Notice  
17-11-2017

The absence of 3<sup>rd</sup> semester students batch 2016 from the regular class work on 17-11-2017 has been viewed seriously in view of the constraints on account of limited working days available in the current semester. This is unexpected of the Post-Graduate students and it accounts to gross indiscipline, which will be dealt sternly as per the rules of institution. In addition to that 2 marks shall be deducted from marks obtained in Minor-I examination.

The lectures planned to be delivered on 17-11-2017 will be deemed to have been delivered.

### Polymers and Nanotechnology

- Bimetallic mechanism, elastomers, rubbers, thermoplastic and thermosetting polymers

### Organometallic chemistry

- Hydroformylation
- Hydroformylation of alkenes
- Migratory insertion

### Analytical Lab.

- Estimation of phosphoric acid from soft drink
