Design Innovation Centre

Office Memo

Software Engineering Design Club (SOFTEND Club) at Design Innovation Centre invites project proposals from the students and faculty members from School of Technology, broadly falling under but not limited to the following domains:

1. Innovative and need based mobile applications catering to the local problems of the state.
2. Need based mobile applications for the problems related to the health sector.
3. Embedded solutions for local problems of the state.

Project proposals may be submitted to the SOFTEND Club at DIC@IUST by 28/11/2017. The shortlisted projects will be called for a presentation.

Each project must be completed within a period of 2-3 months.

Project proposals shall highlight project objectives, methodology, usefulness in day to day life and budgetary requirements.

For further enquires, contact the undersigned.

Mr. Peerzada Shoaib Hamid
(Coordinator, SOFTEND Club)
