

650 million people
in the world have
disabilities.

65 million
of those need a
wheelchair. Of
these **20 million**
don't have access
to a proper wheelchair.¹

Wheelchair users face countless problems, everyday.
There's a big gap between what wheelchairs do and what they
should do. Help us bridge that gap:

WHEELCHAIR REDESIGN CHALLENGE

Customising wheelchairs to local needs through low-cost
modifications.

Submit your design ideas to DIC@IUST by 12-01-18. Best three
ideas will get funding, facilitation & prize money.

1st prize: Rs.10,000

2nd prize: Rs.6,000

3rd prize: Rs.4,000
