ABOUT THE UNIVERSITY

Established in 2005, IUST aims at creating a fertile environment for young minds to blossom and transform into leaders of tomorrow. The university is dedicated to provide an all round education to its students that encompasses academics, morals, physical, mental growth and development. IUST is on the journey committed to steady growth and excellence. The university is well equipped with state of arts labs, computer facilities, web connectivity, libraries, and a very talented faculty. IUST has also started Ph.D. programs to help in solving various indigenous and global questions of the contemporary world.

TWO DAY NATIONAL WORKSHOP

On

FOOD SAFETY: CURRENT SCENARIO AND FUTURE CHALLENGES

On

18th -19th September, 2018

Organized By

**Department of Food Technology
Islamic University of Science And
Technology
Awantipora, Pulwama**

Sponsored By

TEQIP-III

THE PROGRAMME

Over the years, food safety has occupied the topmost seat among the emerging concerns in the global context. Fatal diseases like gastrointestinal cancers, diabetes, cardiovascular disorders and so on are penetrating the human population at a fast pace. The existing scenario with respect to food safety is no better in the state of J&K. In this context, this workshop aims to be a platform, wherein responsible members from the government, regulatory bodies, academicians, industrialists and students would assemble and look at all the aspects of food safety to strategize the operational plans for ensuring safe food for the citizens of the J&K state.

Workshop Themes

ABOUT THE DEPARTMENT

Located at the picturesque campus of IUST, the Department of Food Technology was established in 2006. Equipped with modern infrastructure, state of art laboratories, and well qualified resource personnel, the Department of Food Technology aims to provide students with basic and advanced knowledge of food and to acquaint them with the practical applications of the subject. The Department also holds collaborations with the leading institutions of the country and is looking forth to the establishment of a Quality Control Centre par excellence, for assessing the the quality of food products manufactured in the state of Jammu and Kashmir.
